Rainshower® NEW

next generation

Icon, Solo and Eco

The new Rainshower collection presents high-performance GROHE Dreamspray® in a way which could revolutionize how people interact with showers. The combination of ground breaking aesthetics and bold iconic colours (chrome with evening gray, and moon-white with ecoGreen) enable the products to transcend into a new genre of hand showering. The super flat body with its humanized aesthetic entices interaction and creates an instant emotional connection, while the uniquely shaped spray faces create a full-coverage, satisfying shower experience.

Performance Features:

- **GROHE DreamSpray®** Technology – advanced shower engines efficiently distribute an equal, consistent flow of water to every single nozzle for a shower experience that is second to none
- **GROHE StarLight®** Technology for a deep, lustrous long lasting chrome finish
- **GROHE SprayDimmer®** Technology – an eco-conscious water-saver button which reduces the water flow by 40%
- **GROHE CoolTouch®** Technology creates a thermal barrier between the hot water and the surface of the hand shower
- **SpeedClean®** anti-lime system – a simple wipe of a finger is all that is needed to remove limescale and maintain “like-new” performance
